## Audio Control User Guide for Administrators

[www.intercalleeurope.com](http://www.intercalleeurope.com)

InterCall and Adobe have joined forces to provide a captivating audience experience by integrating InterCall's Reservationless-Plus audio conferencing service with the cutting edge Adobe Connect online collaboration solution.

This guide provides details on how Site Administrators can configure InterCall audio integration for the Adobe Connect service.

### Audio Configuration for Site Administrators Only

To begin audio configuration, go to your Adobe Connect website and follow the steps below:

STEP	ACTION
1	Log into your Adobe Connect website using your login credentials. If you do not know your login credentials, please reference your Adobe Connect welcome email.
2	Once you are logged in, click the <b>Administration</b> tab at the top of the screen.
3	Select <b>Audio Providers</b> from the navigation menu at the top of the screen.
4	Under the <b>Provider Information</b> list, highlight <b>InterCall</b> .
5	Under <b>Provider Information</b> , click <b>Edit</b> and then select <b>Enabled</b> in the drop-down menu to configure the audio integration. The settings should appear as follows:
<div style="border: 1px solid gray; padding: 5px; background-color: #f0f0f0;"><b>Provider Information</b>  <b>Provider Name:</b> InterCall <b>Provider Status:</b> <input type="button" value="Enabled"/> ▾ <b>Provider Type:</b> Integrated Telephony Adaptor</div>	
6	Click <b>Save</b> to save your settings.

Now that you have enabled InterCall as your audio conferencing provider, individual meeting hosts can now configure their profiles to use InterCall Reservationless-Plus audio conferencing in conjunction with Adobe Connect web meetings.

For more information on how to set up and use audio integration with Adobe Connect, please reference the **Adobe Connect Audio Controls Guide for Meeting Hosts**.
