What Is Huddle?

Huddle offered by InterCall is a network of secure online workspaces where you can share files, collaborate on ideas, manage projects and organise virtual meetings. Huddle enables teams to work more effectively across boundaries, both inside and outside the enterprise. It is available online, on mobile, on desktop, via Microsoft Office applications, the major business social networks and in multiple languages.

Huddle is a perfect accompaniment to your InterCall audio and/or web conferencing services. You can arrange a meeting via Huddle, share dial-in details, upload agendas and presentations. You can take down notes online, and post meeting minutes. Carry on your conversation after the call on your group's discussion forum.

Why use Huddle?

Integrated with InterCall - Integral part of your InterCall account. Schedule meetings and share documents.

Up and running in minutes - Hosted online. No download, no install.

Unlimited users - Collaborating with anyone and everyone on a single project.

Multiple languages - User level setting to use Huddle in English, French, German, Spanish or Italian and with more languages to come

High adoption - Simple and easy to use. Spreads virally with 80% adoption rate.

Reducing costs - Save time, travel and even server costs.

Access anywhere - Can be used to connect with people globally. All you need is a computer connected to the internet.

Who uses Huddle?

Huddle is used by individuals, teams and organisations of all shapes and sizes. Here are some examples how different organisations are already using Huddle.

HUDDLE FOR SALES TEAMS

- + Create a recurring meeting place with your customers and share important documents.
- + Increase the speed of contract negotiations with version control.

HUDDLE FOR MARKETING AND PROJECT TEAMS

- + Share information externally with agencies, partners and suppliers or internally with the board.
- + Avoid the typical problems with email systems and FTP servers (version control, no audit trail, etc).

HUDDLE FOR EDUCATION AND TRAINING

- + Collaborate on specific school, university or scientific projects breaking geographical barriers.
- + Use it as a hosted, out-of-the-box project and document workspaces for student projects.

HUDDLE FOR GOVERNMENT

- + Collaborate on policies and share information with other government departments, agencies and consultants.
- + Control access to sensitive documents.

What is needed to use the service?

Huddle is a hosted service, so there's no download or install required. You just need:

- + An Internet browser
- + An Internet connection

You can easily set-up your Huddle account on your own. Enterprise users (account owners) are set-up by the Huddle customer team, within 24 hours.

Huddle supports Internet Explorer 6 and 7, Firefox 3 and Safari 3 Internet browsers.

What to do next?
