

InterCall Unified MeetingSM

New Release Overview

v4.4

Take advantage of the newest version of InterCall Unified Meeting today! As part of our on-going strategy to provide you with the most powerful way to bring people together from anywhere in the world—quickly, conveniently and, most important, easily, we have added functionality that will make your meetings even more productive.

Below you will find a brief description of the features now available so you can see for yourself what's new.

Application Sharing Enhancements

ENHANCED PERFORMANCE

Application sharing has been upgraded to provide enhanced performance.

REGION SHARE

Region Share allows you to share a certain region of your desktop or the application you are sharing.

- + The shared region is defined by the Select Share Region window.
- + The Select Share Region window can be repositioned and resized.

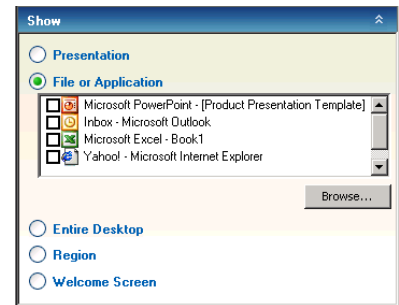

PAUSE APPLICATION SHARING

You have the ability to pause all application share modes. Once paused, the viewers will remain on the last screen displayed before the pause was initiated.

Entry and Exit Notifications

You can also now control participant entry and exit notifications.

- + Change notifications for the CURRENT meeting via the in-meeting Notifications button.
- + Set notifications for ALL meetings from the Voice icon in the Meeting>Meeting Options menu.
